

TO WHOM IT MAY CONCERN

SCOTT WILKINSON was a valued team member on Weta Production's 3D 26-part animated children's series *Jane and the Dragon* for 14 months from May 2005 to July 2007.

Scott worked in our Shots department and was primarily responsible for cloth and hair simulation and finishing. Because of his aptitude and experience we also asked him to do secondary animation and simulation reviewing thus providing a first stop quality control for the Shots department.

Scott was a skilled and creative member of our team and highly regarded by his peers. He was willing, courteous and always went the extra mile to ensure the highest quality work was delivered.

We were very sorry to lose him when *Jane* ended and would be delighted to work with him again.
